Acceptable Use Guidelines (AUG) for Technology Resources
Information for Students and Parents

In accordance to Board Policy 7540.03, The Manchester Local School District (MLSD) provides technology resources to facilitate growth in productivity, communication, media literacy and collaboration. Use of technology, whether district owned or personal property, must support education, academic research, and be consistent with the educational objectives of the MLSD. Any other use is unacceptable.

The MLSD buildings offer access to the Internet via both wired and wireless network connections. This agreement and associated rules and regulations refer to all electronic computing, communications, recording and/or imaging devices – including but not limited to computers, tablets, cell phones, mobile devices, portable memory storage devices, digital cameras and all other technology infrastructure and software:

- Any computing or telecommunications devices owned by, in the possession of or being used by district staff that are operated on the grounds of any district facility or connected to any equipment at any district facility by means of direct connection, telephone line or other common carrier type of connection including hardwired, fiber and/or wireless.

This agreement is in effect for any school-sponsored activity at any time or any place.
